

# St. Andrews Center

## **Additional Needs:**

**Large Capacity Vehicle:** Transportation cost us up to \$12,000 per year (fall semester). Cost can be \$20,000 (including spring and summer) programming. We are in desperate need of a vehicle that can transport up to 30-40 students. We pick students up from school and then take them home each day.

**Sponsorship:** Students need you to help them perform better in their studies. Your family can help partner with a student by providing sponsorship. A \$250 gift would assist a student through the fall program.

**Internship Opportunities:** Build your skills and your resume by becoming an intern at St. Andrews Center. Assist with fundraising projects or develop an advocacy group, or speakers club.

**Grant Writer:** The Center has very limited resources and staff time available for all of the tasks that need attention. Grant writing is needed to support programming. A gift of \$1,500 could help us contract with a professional grant writer to assist with grant proposals.

**Art Instructors:** Artists, bring your talent and skills to St. Andrews Center Arts Academy! Our 3<sup>rd</sup>-5<sup>th</sup> grade students count on the inspiration of local artists to provide art instruction of all kinds.

**St. Andrews Center Liaison:** Assist the director with getting other churches involved in developing and implementing ways to partner with other churches.

**Volunteer:** Give back to your community at St. Andrews Center. Make a difference through your volunteer efforts. Volunteers assist with projects from painting, to carpentry, to helping students with homework. Your time and talent is needed and valued!

If you have any questions about ways you can partner with St. Andrews Center, please contact Kristi Strode, executive director, at 423.629.9872.
